

Dynatex®

5th Wheel Advanced Grease Packet

DYNATEX 5TH WHEEL ADVANCED GREASE

lubricates the 5th wheel top plates of the trailer. It protects from metal and rust corrosion. No tools or clean-up are required. Our pre-measured packets will burst and disintegrate, allowing the motion of the trailer plate to distribute the grease evenly every time. Dynatex 5th Wheel Advanced Grease is designed for heavy duty applications, and is effective in extreme temperatures and environmental conditions.

Easy as placing one packet on each side of the 5th wheel plate near the base. The packets will burst and distribute grease when engaged between the tractor and the trailer.

PART # 56400

60 2oz. Packets per box

240 packets per case (4 boxes)
